SKILLS

TECHNICAL SKILLS

- C++
- C
- JAVA
- HTML ,CSS
- n8n

NON-TECHNICAL SKILLS

- Communication Skills
- Teamwork
- Problem solving
- Creativity

PROFILE SUMMARY

Motivated B.Tech 3rd-year student with skills in programming using C++ and Java. Skilled in building responsive and clean web interfaces with HTML and CSS. Hands-on experience with modern AI tools and n8n to create smart automations and real-world workflow solutions. Passionate about problem-solving, improving DSA skills, and developing practical projects. Always eager to learn new technologies and contribute to impactful work.

PROJECT

Portfolio Website

Built a fully responsive personal portfolio website using HTML, CSS, and JavaScript, featuring smooth navigation, interactive tabs, and a mobile-friendly menu design. The site includes structured sections for About, Services, Projects, and Contact, styled with a modern UI theme. I also integrated a functional contact form connected to Google Sheets for real-time message collection, enhancing both usability and interactivity.
